future on track

WATV-001

MODEL: WILDERNESS A.T.V. RENEGADE 300 ZTR

The RENEGADE 300 ZTR is truly an All Terrain - All Season Vehicle. As a track driven vehicle, the Renegade provides superior traction in all types of terrain and conditions that cannot be matched by wheel type vehicles. It has over 2,500 sq. inches of track surface, insuring a ground pressure between .66 and .94 psi, minimizing any soil disturbance while maintaining excellent traction. Our steel belted, endless rubber track, has a very aggressive tread design, further insuring pulling power when you need it.

A durable, industrial 32 horsepower (992 cc), 4 cycle, air cooled, OHV V-Twin engine with full pressure lubrication and a 3,000 hour life, coupled to a rugged transmission employing dual Sauer/Danfoss hydrostatic drives, provide the power to transport people and cargo to areas that wheeled vehicles fail to go. A clutch mechanism insures easy starts in cold weather equating to longer starter life and allowing proper warm-up. A single T-handle provides for turning and braking as well as determining the vehicles forward and reverse speed. Simple one handed operation makes it a pleasure to drive and reduces operator fatigue.

The uses for the RENEGADE are endless, varying from utility, pipeline, and transmitter tower service crews to fire and police patrol, ski and safety patrol, conservation and forestry operations, surveyors, real estate sales and construction operators. It is great on the ranch or farm for all those chores including snow removal and sportsmen love it for hunting, fishing or just getting away. While designed as a serious work vehicle, it gets you where you want to go after hours too.

We have encountered many conditions in our testing, which varied from 95 degree summertime to well below zero wintertime, from sea level to over 9,000 feet in the mountains of Montana and Utah, from woods to swamp and from construction site to asphalt parking lot. With more than two and a half years of testing, we are pleased and proud of the Renegade's performance.

SPECIFICATIONS

- Turning Radius:** Zero inches with unbelievable maneuverability – The RENEGADE 300 ZTR turns on its own center allowing it to work well in restricted areas.
- Speed:** Approximately 15 MPH forward and 9 MPH in reverse.
- Drawbar Pull:** Approximately 1200 lbs. dependent on ground conditions.
- Ground Pressure:** Unloaded – .65 psi
With Operator – .74 psi
With 2 people and 200 lbs. equipment – .89 psi
- Ground Contact:** Over 2,500 square inches.
- Engine:** Generac 32 HP, air cooled 4 cycle OHV V-Twin, 992 cc industrial engine with overhead valves, full pressure lubrication and a 3,000 hour life.
- Drive System:** Twin Sauer/Danfoss hydrostatic transmission with gear reduction unit and completely enclosed drive system with no sprockets, chains or belts.
- Electrical:** 100 AMP alternator, 2 Halogen headlights, 2 Halogen reversing lights, 2 tail lights, cigarette lighter and 12 volt power outlet.
- Battery:** Standard automotive type – 12 volt.
- Suspension:** Each set of bogie wheels is individually suspended by rubber torsilastic mounts, steel springs or rubber shear mounts.
- Bogie Wheels:** Cast aluminum alloy heat treated and machined.
- Tracks:** Endless cured rubber tracks with steel belt reinforcement and molded double drive lugs.
- Seating:** 2 front bucket seats and 2 rear jump seats, all with seat belts.
- Body:** Heavy-duty fiberglass with non-skid polyurethane hybrid finish for maximum durability.
- Stock Colors:** Red, Yellow and Dark Green
- Dimensions:** Length: 106 inches Weight: 1,640 pounds
Width: 62 inches Track Width: 15 1/2 inches
Height: 72 inches Ground Clearance: 9 inches
- Options/Accessories:** Snow Plow, Trailer, Electric Winch, Windshield Wiper, Brush Cutter, Salt Spreader and All Weather Enclosure.

- 1 4 PERSON CAPACITY
- 2 AVAILABLE TRAILER HITCH
- 3 GENERAC 30 HP ENGINE
- 4 SINGLE T-HANDLE STEERING
- 5 12V POWER OUTLET
- 6 ADJUSTABLE VENTS
- 7 MOLDED TREADS
- 8 AVAILABLE COLORS

9 ACCESSORIES
